

" NO PINCH POINTS"

LOKRITE SAFETY BACKUP

Reduce your hand injuries and near misses.

Open end backup with retention cleat allows for installation in very tight areas.

Magnets embedded in unit allow it to hold to carbon steel creating hands free operation.

Has release bolt for quick release under tension. Hammers not needed for removal.

Can be used in tight quarters.

Great for non-sparking areas.

Can be used for breakout.

Lanyards can be installed for fall protection.

Can be custom fabricated for almost any application.

Southern Bolting Equipment Inc.
