Every tool we stock has an active calibration certificate which accompanies said tools at time of rental.

In addition to maintaining all the above equipment in-house, we also have an **on site repair and calibration facility** for hydraulic, clicker, pneumatic, and battery operated torque wrenches, pumps, multipliers and lastly gauges for calibration from 0-15 PSI units up to 0-10,000 PSI. For your convenience, we can also send our **Mobile Calibration Van** to our customer's locations for these services! Most calibrations are **ISO 17025 Accredited**.

Please let us know how we can be of service to you!
